

## DECLARATION OF CONFORMITY

in accordance with Regulation (EU) 2019/1021 on Persistent Organic Pollutants (POPs)

### Scope of this Declaration

This declaration applies to **all products manufactured by Global Components** (hereinafter referred to as "the products").

### Legal Basis

This declaration is issued in accordance with **Regulation (EU) 2019/1021 on Persistent Organic Pollutants (POPs)**, which governs the manufacture, placing on the market, use, recycling and disposal of POP substances within the European Union.

### ECHA POP Substance Lists

The relevant POP substance lists are maintained by the **European Chemicals Agency (ECHA)**:

- **Substances subject to the POP Regulation:**

<https://echa.europa.eu/de/list-of-substances-subject-to-pops-regulation>

- **Substances proposed as POPs (Candidate List):**

<https://echa.europa.eu/de/list-of-substances-proposed-as-pops>

### Declaration of conformity

Global Components hereby declares that:

- All products manufactured by Global Components do not contain any substances listed in the above ECHA POP lists, or**
- Where such substances may be present, their concentration is below the legally applicable limits defined in Regulation (EU) 2019/1021, and therefore the products fully comply with the requirements of the POP Regulation.**

This declaration is based on:

- material and substance declarations from suppliers,
- safety data sheets (in accordance with REACH),
- internal and external analytical data,
- applicable EU regulatory requirements.

### Exclusion of POP-containing materials

Global Components ensures that no POP-containing materials are intentionally used in the manufacture of its products and that any POP-containing waste is handled and disposed of in accordance with applicable EU and national legislation.

### Validity

This declaration is valid for all products manufactured by Global Components at the time of issuance. Any changes to product composition, raw materials, or regulatory substance lists may require an update of this declaration.
